# LINE

MULTIFUNCTION JOYSTICK PEDAL

FLUSH SYSTEM

WATER UNIT WITH PROXIMITY SENSOR AND CUP HOLDER

5 LEDS DENTAL LIGHT WITH PROXIMITY SENSOR

ANTI-CRUSHING SYSTEM

RETRACTABLE RODS WITH LOCKING SYSTEM (PRESTIGE I1H AND PRESTIGE I2H)

### CHAIR

· Anti-crushing system.
· Anatomic and biarticulated headrest.
· Joystick pedal with zero back position; 3 working positions; spit position and dental light activation
· Trendelenburg position.

### DELIVERY UNIT

· Retractable rods with locking system (Hasteflex Version).
· Arm with pneumatic lock
· Up to 5 terminals on the equipment, depending on the version
· Removable stainless steel top
· PAD panel with negatoscope that activates chair and dental light

### WATER UNIT

· Easy access to the debris filters.
· Water unit can be turned 60°.
· Assistant arm with Control pad
· Electric activation of the water tank and cup holder.
· External and Cattani Suction Terminal.
· Proximity sensor.
· Cup holder.

### DENTAL LIGHT

· Sirius Sensor 5 LEDs
· Lower power consumption and longer durability.
· Proximity sensor.
· Selection of light intensity from 25.000 to 45.000 LUX.
· Handles: Removable and autoclavable.
· Frontal Protection: Removable

# SERIAL ITEMS

## Dental Light - 5 LEDs Sensor
- LED Lighting technology: Energy-efficient and long-lasting.
- Proximity sensor for activation and light intensity control.
- Cold light source, no heat generation.
- Rectangular spotlight for a larger work area.
- Innovative design with ergonomic handling.
- Bilateral loop handles for isolation and autoclavable.
- Removable front protector for optical system protection.

- Sensor 5 LEDs
- Optical system with 5 LEDs
- Three Intensities: 25,000, 35,000 and 45,000 LUX

## Eletric Micromotor
- Speed Transmission: 1:1
- Maximum Speed: 40,000 rpm
- Maximum Torque: 3.5 N.cm
- Irrigation System: Internal
- Lighting System: LED+
- Connection Type: ISO 3964 Short Coupling (INTRA)
- Weight: 57 grams

(except in versions Prestige I and Prestige IH)

## Control pad with negatoscope
– Seat movements
– Backrest movements
– Blocking movements
– Position back to zero
– Activation of water from spittoon and cup holder
– Spit position and return to last position
– Working positions
– Dental light
– Pneumatic chair arm activation
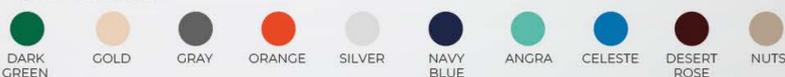

## Assistant arm with Control pad
